IT Security and Cyberterrorism Conference

How much of a threat is cyberterrorism? What impact would a cyberattack have on our national and economic security? What is the government doing to prepare for such an event?

INPUT is assembling a panel of government executives and security experts to discuss the current state of IT security and the cyberterrorism threat climate.

Speaker Panel

- **William Neugent**, Chief Engineer, Security and Information Operations, MITRE and Author of, "No Outward Sign: A novel about vigilante hackers, the FBI and cyberterrorism"
- **Allan Paller**, Director, Research, SANS Institute
- **Bruce Brody**, CISO, U.S. Department of Energy
- **Lisa Schlosser**, CIO, U.S. Housing and Urban Development
- **Daniel G. Wolf**, IA Deputy Director, National Security Agency (invited)
- **Congressman Dan Lungren**, California (invited)

See the [Full Agenda](#) or [Register Now](#).

Panel Discussion Topics:

- Is Cyberterrorism a threat?
- Current challenges and vulnerabilities with IT Security
- Is the private sector prepared for a cyberattack? How?
- What the federal government is doing to prepare for such an attack
